

Give an Alternative Gift

Give an Alternative Gift

Use your buying power to help inspire and enable people to become the planet protectors and change makers that our world needs.

Your donation to the Sustainability Centre will give a gift back to the planet by making it possible for everyone to be part of eco evolution in action.

Your gift will be celebrated with a ceramic leaf on our ever-growing Leaves for Learning Tree.

Friends can contribute to a leaf as an alternative present. They can give to you and you can give to them.

The money gifted by you and your friends will support a local charity and really make a huge difference.

Each leaf represents love for the planet and faith that meaningful environmental change is possible.

Gift and donate now . . .
